Temporary Use Permit Information Sheet

Purpose

The purpose of the temporary permit process is to ensure consistency with the applicable sections of the Unified Development Code (see below). You will submit a Master Permit Application Form. Refer to the materials accompanying the Master Permit Application Form for additional information.

Process

Temporary use applications may be processed as Type I, Type II, or Type III permits, depending on the nature of the proposed use. Some temporary uses may require a conditional use permit or be subject to the requirements of Chapter 8.20 of the Jefferson County Code, Assemblies. Please refer to Section 4.38, Temporary Uses, and Section 4.39, Temporary Festivals, of the UDC for more information.

Most temporary uses will be reviewed administratively by the Department of Community Development (DCD). An administrative determination to approve a temporary use application will be made when the proposal is consistent with the applicable sections of the Jefferson County Unified Development Code. An administrative determination to deny an application will be made when the proposal is not consistent with the goals, policies, and provisions of the Comprehensive Plan, and/or applicable community development plan and the Jefferson County UDC. Denials of application for temporary use permits will be accompanied by a written statement identifying specific areas in which the proposal is deficient.
