The attached materials are background information that the Committee has reviewed to date in preparing for the charrette. The materials include:

- summary comparison information from the year 2000 census on age, education, employment, income, housing, and transportation conditions for subdivisions of the county, Puget Sound, Washington State, and the US.
- federal, state, and private housing programs that may be applicable to housing market segment needs in Jefferson County, and
- particulars on a few selected housing programs including local example projects.

It would be helpful if you could review and become familiar with the contents before our workshop session Wednesday night. We look forward to your participation in the charrette session.
