Peter,
Here are the words we agreed upon last night.

Tom

Insert after 6.1 and before 6.1.A

The county intends that increased buffers to protect ecological functions should be used primarily to prevent adverse impact along shorelines known to be sensitive to nearby development and where lot configurations can sustain larger buffers.

You may be able to use a less than standard buffer if you can show your plans, at your location, will cause no harm to the shoreline ecology, consistent with section 10.3.
