

Reach O Quilcene Bay. The proposal has the entire head of the bay designated Natural. Much of this land is zoned "Prime Agricultural Land: AP 1:20." I drive past these lands daily and they are exclusively used for raising cattle.

However, the DOE Guidelines clearly say agriculture does not belong in a natural designation.

It appears that Conservancy would be a more appropriate designation.

SED Map 5:

JCC Zoning map. The crosshatch is AP 1:20, Gold is RR 1:5, Pale yellow is RR 1:20
