

Jefferson County
Board of Commissioners
Agenda Request

To: Board of Commissioners
Philip Morley, County Administrator

From: Frank Gifford, Public Works Director

Agenda Date: August 23, 2010

Subject: Public Bid Opening for Request for Proposals for Recycling Services

Statement of Issue:

The Department of Public Works (Public Works) has issued a Request for Proposals (RFP) for operations of its recycling programs. This includes the operations and management of the County's material collection sites as well as the operation of the Moderate Risk Waste Facility.

Analysis/Strategic Goals/Pro's & Con's:

A turnaround in commodities pricing for recyclables will likely yield contract conditions more favorable to the County through a RFP rather than a long-term contract extension under current terms and conditions.

Fiscal Impact/Cost Benefit Analysis:

Costs associated with an RFP process are budgeted for in the approved 2010 budget.

Recommendation:

Direct Public Works to open bids received for a RFP for Recycling and Moderate Risk Waste Facility Operations Services.
