JEFFERSON COUNTY BOARD OF COUNTY COMMISSIONERS

AGENDA REQUEST

TO: Board of County Commissioners
Philip Morley, County Administrator

FROM: Jean Baldwin, Director

DATE: March 28, 2011

SUBJECT: Agenda Item – Vendor Contract – Peninsula Auto Wrecking and Recycling; upon signature – May 30, 2011; \$27,100

STATEMENT OF ISSUE:

Jefferson County Public Health, Environmental Health Department, requests Board approval of the Vendor Contract – Peninsula Auto Wrecking and Recycling to remove solid waste from Parcel #901-112-013; upon signature – May 30, 2011; \$27,100

ANALYSIS/STRATEGIC GOALS/PRO'S and CON'S:

This is a contract between Jefferson County and Peninsula Auto Wrecking to remove solid waste from a property for which Jefferson County has received a Warrant of Abatement through Superior Court (Parcel #901-112-013).

The Warrant allows Jefferson County to hire a contractor to enter the property and remove all solid waste, in an attempt to bring the property into compliance with County and State law. This comes after years of JCPH seeking voluntary compliance from the landowner.

FISCAL IMPACT/COST BENEFIT ANALYSIS:

This contract is financed by funds from an abatement fund established by Public Works and JCPH for this purpose. Clean-up costs will then be assessed to the property owner in the form of a lien against the property and tied to the property taxes for the parcel. In this way the costs return to the abatement fund with no net loss to the County.

RECOMMENDATION:

JCPH management request approval of the Vendor Contract – Peninsula Auto Wrecking and Recycling;
upon signature – May 30, 2011; \$27,100

Phase I - Vehicle Removal from Site

- Extreme care shall be taken to minimize disturbance to the Chimacum Creek stream bank and adjacent private property while site work is in progress.
- Work schedules and access shall be coordinated through JCPH (Solid Waste Division).

- Contractor will be responsible for recycling the tires removed from the vehicles as well as other loose tires removed from the SP.

Phase IV - Vehicle Crushing and Disposal

- After preparing vehicles for crushing as described in Phase III above, the Contractor shall crush the vehicles and transport the vehicles to a licensed scrap processor which is in compliance with applicable regulations and which is capable of final shredding or compacting of scrap metal.

- Prior to transport, the JCPH (Solid Waste Division) will provide the Contractor with the paperwork required for the legal disposal of said vehicles (see Appendix).
