

# Worksheet S

## Small Project Certification

This certification may only be used if you answer yes to all of the questions below (circle yes or no) . Otherwise, a submittal prepared by a licensed engineer may be required.

- |                              |                             |  |
|------------------------------|-----------------------------|--|
| <input type="checkbox"/> Yes | <input type="checkbox"/> no | Permanent and temporary drainage on site is designed to divert Stormwater away from my onsite septic system or any neighboring onsite septic system.   |
| <input type="checkbox"/> Yes | <input type="checkbox"/> no | If located in a Seawater Intrusion Protection Zone (SIPZ), I am able to infiltrate stormwater onsite using a dry-well or other method (full dispersion, downspout dispersion).   |
| <input type="checkbox"/> Yes | <input type="checkbox"/> no | My project will not discharge stormwater runoff into a critical area (including but not limited to: geohazard area or its 30-foot buffer, wetland or Fish and Wildlife Habitat Conservation Area)  |
| <input type="checkbox"/> Yes | <input type="checkbox"/> no | My proposal is a small project, which means it will create less than 2,000 square feet of new, replaced, or new plus replaced impervious surface area, and has less than 7,000 square feet of land disturbing activities as defined on the Stormwater Calculation Worksheet. |

I understand that my project must comply with Minimum Requirement #2 in the Department of Ecology Stormwater Management Manual as amended. I have read the Construction Stormwater Pollution Prevention Fact Sheet and will implement Best Management Practices (BMP's) as applicable to my project.

Applicant Signature

By signing the small project certification, I as the applicant/owner attest that the information provided herein is true and correct to the best of my knowledge.
